Sir:

REQUEST FOR CORRECTED FILING RECEIPT

Please note that the filing receipt for the above-identified application incorrectly indicates that the applicants submitted a non-publication request. Such a request was not made by the applicants and the filing papers for this application are enclosed showing that such a request was not made. In addition, the previous updated filing receipt received for this application correctly indicates that such a request was not made. (see enclosure). The new filing receipt therefore needs to be corrected to show that no non-publication request was made and to indicate the projected publication date. We have attached a copy of the filing receipt indicating the necessary changes. We would appreciate immediate attention by the USPTO to correct this error. Please do not hesitate to contact me if you require additional information or have any questions.

Dated: January 17, 2002

*****WARNING*****

Applicant has requested non-publication, certifying that the invention disclosed in this application has not been and will not be the subject of an application filed in another country, or under a multilateral agreement, that requires publication at eighteen months after filing; and has also claimed the benefit of an application filed in another country or under a multilateral agreement. Because the non-publication request and corresponding certification appears to be inconsistent with the priority claim, applicant is reminded that he/she has an obligation to promptly notify the Office and rescind the non-publication request if the invention disclosed in this application is the subject of an application filed in another country, or under a multilateral agreement, that requires eighteen-month publication.

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
